

MyGenie POS

Roles & Permissions — Complete Mapping Report

Date: 18 July 2026
Agent Role: INVESTIGATION
Confidence: HIGH (curl-verified + full code trace)
Sprint: POS 5.0

Total Permissions	53
Gated in FE	17 (32%)
NOT Gated	36 (68%)
Role Types	6
Role Templates	10
PermissionGate Component	EXISTS but UNUSED

1. System Architecture

Login API returns a flat array of permission keys (e.g., ["pos","order","bill",...]). FE stores this in sessionStorage. useAuth().hasPermission("key") checks array.includes(). Components conditionally render UI elements based on these boolean checks. All gating is client-side hide/show — no API-level enforcement.

2. Role Types (6 from Backend)

Role Type is administrative metadata. It is displayed in the Add/Edit Role form dropdown and sent to backend on save. It is NOT available at runtime (login response does not include it) and NOT used for any FE gating, routing, or conditional behavior.

ID	Name	Backend Value	Purpose
1	STATION	STATION	Kitchen/station staff (chef)
2	Waiter	Waiter	Table service staff
3	Manager	Manager	Floor management
4	Billing	Billing	Cashier/billing desk
5	Server Waiter	Buffet	Buffet/food court service
6	Delivery	Delivery	Delivery riders

3. Role Templates (10 System Templates)

ID	Template	Permissions	Protected
16	Owner	50	YES
14	Manager	26	YES
13	Cashier	19	YES
17	Billing User	16	YES
11	Waiter(S)	11	YES
15	Accountant	10	YES
12	Waiter(T)	7	YES
20	Captain	5	YES
18	Station (Chef)	4	YES
19	Delivery Boy	4	YES

4. Sidebar Gating (5 Permission Checks)

Each sidebar section maps to ONE permission. If user lacks it, the entire section is hidden. Logic: Sidebar.jsx L290 — visibleMenuItems.filter() checks SIDEBAR_PERMISSIONS map.

Sidebar Section	Permission	If DENIED
Dashboard	pos	Home page + order screen hidden
Day Closure	pos	Settlement panel hidden
Expenses	pos	Expense entry + setup + report hidden
Credit	pos	Credit/TAB management hidden
Menu Management	menu	Bulk editor + menu CRUD hidden
Reports	report	All daily reports hidden
Insights	report	All 10+ insight reports hidden
Settings	restaurant_settings	Restaurant config hidden
Inventory	inventory	Stock, recipes, vendors hidden

GAP: Expenses uses "pos" instead of "expenche". Employee Management has NO gate.

5. Order Screen Gating — 9 Permission Checks (OrderEntry.jsx)

Permission	Flag	UI Element Gated	Mechanism
order_cancel	canCancelOrder	Cancel Order button on toolbar	Conditional render — button hidden
food	canCancelItem	Cancel Item (X) per cart item	Callback returns false — X hidden
transfer_table	canShiftTable	Shift Table button	Conditional render + orderType check
merge_table	canMergeOrder	Merge Table button	Conditional render + orderType check
food_transfer	canFoodTransfer	Transfer Item to another table	Prop to CartPanel — button hidden
customer_management	canCustomerManage	Customer section (name/phone/CRM)	Flag controls panel visibility
bill	canBill	Generate/Collect Bill button	Prop to CartPanel — button hidden
discount	canDiscount	Discount section in adjustments	Flag controls discount UI
print_icon	canPrintBill	Print Bill button	Conditional render (BUG-057)

6. Dashboard Gating — OrderCard Props (DashboardPage.jsx)

Card Context	Permissions Passed	Actions Available
Dine-In table card	order_cancel, merge_table, transfer_table, food_transfer, print_icon, bill	Cancel + Merge + Shift + Transfer + Print + Bill
Takeaway / Delivery	order_cancel, print_icon, bill (merge/shift/transfer = false)	Cancel + Print + Bill only
Hold / Unpaid	order_cancel, print_icon, bill (merge/shift/transfer = false)	Cancel + Print + Bill only
Scan Order popup	order_cancel, print_icon, bill (merge/shift/transfer = false)	Cancel + Print + Bill only

7. Reports Gating — 3 Permission Checks

Page	Permission	Flag	UI Element	Mechanism
AllOrdersReport	update_payment	canChangeMethod	Change Payment row action	actionsConfig → OrderTable
AllOrdersReport	order_unpaid	canMarkUnpaid	Mark Unpaid row action	actionsConfig → OrderTable
RoomOrdersReport	order_unpaid	canRemoveFromRoom	Remove from Room button	Prop to detail component

8. Complete Permission Map — All 53 Permissions

1	pos	frontend	YES	Sidebar: dashboard, closure, expenses, credit
2	food	frontend	YES	OrderEntry: canCancelItem
3	order	frontend	NO	NOT CONSUMED
4	bill	frontend	YES	Dashboard+OrderEntry: canBill
5	order_cancel	frontend	YES	Dashboard+OrderEntry: canCancelOrder
6	serve	frontend	NO	NOT CONSUMED
7	aggregator	frontend	NO	NOT CONSUMED
8	show_online_order	frontend	NO	NOT CONSUMED
9	assign_online_order	frontend	NO	NOT CONSUMED
10	order_unpaid	frontend	YES	AllOrders+RoomOrders: unpaid/remove
11	update_payment	frontend	YES	AllOrdersReport: canChangeMethod
12	order_edit	frontend	NO	NOT CONSUMED
13	delivery_man	frontend	NO	NOT CONSUMED
14	clear_payment	frontend	NO	NOT CONSUMED
15	Ready	frontend	NO	NOT CONSUMED
16	customer_management	frontend	YES	OrderEntry: canCustomerManage
17	virtual_wallet	frontend	NO	NOT CONSUMED
18	discount	frontend	YES	OrderEntry: canDiscount
19	transfer_table	frontend	YES	Dashboard+OrderEntry: canShiftTable
20	merge_table	frontend	YES	Dashboard+OrderEntry: canMergeOrder
21	food_transfer	frontend	YES	Dashboard+OrderEntry: canFoodTransfer
22	whatsapp_icon	frontend	NO	NOT CONSUMED
23	print_icon	frontend	YES	Dashboard+OrderEntry: canPrintBill
24	table_view	frontend	NO	NOT CONSUMED
25	token_display	frontend	NO	NOT CONSUMED
26	confirm_order	frontend	NO	NOT CONSUMED
27	complementary_food	frontend	NO	NOT CONSUMED
28	swiggy_zomato_price	frontend	NO	NOT CONSUMED
29	employee	backend	NO	NOT CONSUMED
30	restaurant_setup	backend	NO	NOT CONSUMED

31	inventory	backend	YES	Sidebar: inventory section
32	coupon	backend	NO	NOT CONSUMED
33	printer	backend	NO	NOT CONSUMED
34	menu	backend	YES	Sidebar: menu-management
35	expencc	backend	NO	NOT CONSUMED (sidebar uses pos)
36	Loyalty	backend	NO	NOT CONSUMED
37	restaurant_settings	backend	YES	Sidebar: settings
38	printer_management	backend	NO	NOT CONSUMED
39	table_management	backend	NO	NOT CONSUMED
40	delivery_management	backend	NO	NOT CONSUMED
41	physicalqty_master	backend	NO	NOT CONSUMED
42	report	report	YES	Sidebar: reports + insights
43	report_summery	report	NO	NOT CONSUMED
44	waiter_revenue_report	report	NO	NOT CONSUMED
45	sattle_report	report	NO	NOT CONSUMED
46	revenue_report	report	NO	NOT CONSUMED
47	room_report	report	NO	NOT CONSUMED
48	sales_report	report	NO	NOT CONSUMED
49	revenue_report_average	report	NO	NOT CONSUMED
50	consumption_report	report	NO	NOT CONSUMED
51	cancellation_report	report	NO	NOT CONSUMED
52	pl_report	report	NO	NOT CONSUMED
53	wastage_report	report	NO	NOT CONSUMED

9. Consumption Summary

Frontend (UI actions)	28	13	15	46%
Backend (sections)	13	3	10	23%
Report	12	1	11	8%
TOTAL	53	17	36	32%

10. Critical Ungated Actions

These permissions exist in the backend catalog but are NOT enforced in the FE:

Action	Permission Key	Risk
Edit order (add items)	order_edit	Any role can modify orders
Confirm pending orders	confirm_order	Any role can confirm scan/web orders
Mark items served	serve	Any role can mark served
Mark items ready	Ready	Any role can mark kitchen ready
Mark complimentary	complementary_food	Any role can mark items free
Access employees page	employee	No sidebar gate — visible to all
Access individual reports	sattle_report etc.	11 report permissions all ignored
Clear payment	clear_payment	Any role can void payments

Related CRs: CR-068 (Cancellation Role-Gating), CR-071 (App-Wide Permission Wiring)
